- Time Management
- Tech Troubleshooting

INTERESTS

- 🎬 Video Editing
- 📱 Social Media & Branding
- 🎵 Singing & Music

Aspiring Google Software Developer

Building the future, one line of code at a time.

CAREER OBJECTIVE

Motivated BCA student with strong foundations in C++, Python, and Web Development, eager to join Google as a Software Developer. Known as the go-to person for tech solutions in my circle, I bring a blend of academic knowledge, hands-on project experience, and a passion for building efficient, impactful software. Seeking to contribute to Google's mission of making information universally accessible.

PROJECTS

Personal Portfolio Website <i>Self-Initiated GitHub Pages</i>	2024 – Present
---	----------------

- › Designed and built a full responsive portfolio with a dark luxury editorial aesthetic and gold accents.
- › Resolved cross-device mobile rendering bugs and deployed via GitHub Pages independently.
- › Iteratively improved design across multiple versions based on personal branding goals.

C++ OOP Comprehensive Project <i>Academic — BCA Program, IMRD</i>	2024
---	------

- › Developed a complete C++ project covering all major OOP concepts: encapsulation, inheritance, polymorphism, abstraction.
- › Included classes, constructors, destructors, operator overloading, and file handling with clean documented code.

Web Design Projects (CA-125) <i>Academic — Web Design II, IMRD</i>	2025
--	------

- › Built interactive web pages using JavaScript with form validation, event handling, DOM manipulation, and dynamic UI.
- › Applied CSS layouts and responsive design principles across multiple assignments.

CERTIFICATIONS & ACHIEVEMENTS

🏆	Programming in C++ — Coursera (Course Completion Certificate)
🏆	1st Rank in HSC — Maharashtra State Board
🎨	Participated in College Poster Making Competition on Cyber Security
📌	Active GitHub contributor Personal brand on LinkedIn & Instagram
